DETAILED ACTION

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, 13-23, 25-28 and 31, drawn to a method of assessing a characteristic of wood.

Group II, claim(s) 9-12 and 29-30, drawn to sensing apparatus.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Claim 9 is either obvious over or anticipated by newly cited U.S. Patent 5,224,381.

Accordingly, the special feature linking the two inventions, the use of sonic waves to determine a property of wood, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1731

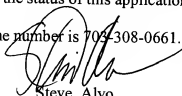

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

It is noted that Applicant has sent in the IDS two references without translations and 4 abstracts. These references cannot be properly considered, as the Examiner does not have a translation of the entire document. Accordingly these references will only be considered their translated teachings. Applicant should supply the entire documents if possible, with translations, to ensure complete consideration by the Examiner.
